Research Assignment #5 Instructions

Subject: Flaw Hypothesis

Your paper should include, but is not limited to:

Research current attacks against Web clients, such as clickjacking and injections.
Write a report summarizing your findings of current attacks and how they can be
countered using flaw hypothesis methodology in two (2) content pages or less.
Content pages do not include the bibliography, cover sheet, etc.

Describe what flaw hypothesis is.
What is the value to developing a flaw hypothesis?
What is the purpose of a flaw hypothesis?
Describe how to create a flaw hypothesis.
Describe at least 4 necessary steps to making a flaw hypothesizing.
Provide a sample flaw hypothesis for a hypothetical network.
    You may pick a live network of a business that you can research online or;
    If you have permission, you may develop a flaw hypothesis for an installation
        at which you work.

Remember:

You are graded on grammar, spelling and punctation as well as your content.
There is a 1/2 point deduction for each error that your paper generates on www.languagetool.org
